

SUMAN BASU

Software Test Engineer | Test Automation | QA Engineering
Kolkata, India | sumanbasu162@gmail.com | linkedin.com/in/sumanbasu162

PROFESSIONAL SUMMARY

Software Test Engineer with 5 years of experience in test automation and functional testing across healthcare and insurance platforms. Builds Selenium-based automation frameworks, automates end-to-end API test suites, and integrates automated execution into CI/CD pipelines. Experienced in Agile delivery, test strategy, and mentoring QA engineers to cut manual effort and accelerate reliable releases.

TECHNICAL SKILLS

Test Automation: Selenium WebDriver (Java, Python), TestNG, Page Object Model (POM), Apache POI, data-driven frameworks

API & Database Testing: REST API testing, Postman, SoapUI, SQL query validation

Testing Types: Functional, Regression, End-to-End, Integration, Cross-browser, Smoke testing

Process & Methodology: Agile / Scrum, CI/CD integration, Test planning, Test case design, Defect lifecycle management, QA documentation

Tools & Platforms: Git, GitHub, Jira, Redmine, BrowserStack, Guidewire PolicyCenter

Domains: Healthcare, Insurance

PROFESSIONAL EXPERIENCE

Applied Research Works – Cozeva

Kolkata, India

Software Test Engineer III

02/2026 – Present

- Mentor QA engineers on automation practices, test design, and defect triage, improving consistency and quality of team deliverables.
- Drive quality best practices across release cycles, supporting faster and more reliable production deployments.

Software Test Engineer II

01/2024 – 01/2026

- Automated end-to-end API test scenarios, improving test reusability and reducing manual testing effort by 30%.
- Optimized automated test scripts within the CI/CD pipeline, shortening execution time and accelerating deployment cycles.
- Maintained and extended the automation suite as the product evolved, keeping regression coverage stable across releases.

Software Test Engineer I

12/2022 – 12/2023

- Refined test plans and built reusable test modules for functional and regression testing, increasing QA coverage by 20%.
- Collaborated with developers and product managers to align test scenarios with business requirements and release goals.

Cognizant Technology Solutions – Test Analyst

06/2021 – 12/2022

- Executed functional and regression test cycles for large-scale insurance applications using Selenium and TestNG.
- Performed SQL-based data validations to verify policy and transactional data integrity across test environments.
- Supported Agile sprints with timely QA reports, test evidence, and release deliverables for client stakeholders.

PROJECTS

TripAdvisor Functional Testing Framework

07/2022 – 08/2022

- Built a Selenium automation framework using Page Object Model and Apache POI to run data-driven functional validation of tripadvisor.in.

EDUCATION

B.Tech, Electronics and Communication Engineering

2017 – 2021

Institute of Engineering and Management, Kolkata — DGPA: 9.1 / 10

ACHIEVEMENTS & ACTIVITIES

- Director's Choice Award – Best Student Contribution, IEM (2020); Winner, Scrapy Wars, Innovacion Tech Fest (2016).
- Secretary, IEM IEEE Circuits and Systems Society; Vice President, IEM Entrepreneurship Cell (2019 – 2021).
